Dana and Mike,
FYI

This is the lawsuit regarding the Arkwood, AR site in which McKesson is suing Bud Grisham. McKesson and the Grishams are PRPs. (We had recently responded to a FOIA submitted by Charles Grisham (Bud Grisham's son).)

EPA is not a party to the lawsuit.

Marlene

Subject: McKesson Corporation v CC "Bud" Grisham

Dear Gloria,

I hope you are very well. I wanted to bring to your attention the attached lawsuit filed by McKesson Corporation against my father as defendant, which came to my attention within the past hour or so.

While I am not a named defendant, my name is invoked numerous times in scurrilous and specious contexts.

I believe assertions regarding EPA as contained in this suit are likewise dubious and unfounded.

It is likely that EPA staff would be called upon for testimony if this action goes to court; for that reason, I wanted to bring it directly to your attention, as you have been so often courteous and considerate towards me in my quest to have the truth and best outcome realized for Arkwood.

Sincerely,

Curt
